That's correct. Thank you so much for working on this with everything else that's going on.

I still need to get you the additional county data for the lung data. Sorry for the delay.

Let me just confirm one thing though: this is Portland only analysis, right? The only reason we have Falmouth, etc., is due to overlap, mistaken zips, and so on. Right?

Okay.

CP

Hi Chris,

It is crazy to think I only have a week and a half of work left! I know you are busy, but the North Deering concern is something I hate to leave unfinished. I was wondering if you have made progress on the mapping and census tract application for the Portland data. Also, do you have access to the Census 2000 gender/age-specific population files for the Census Tracts within Portland?

Thanks for your help!
